Motion by Councilmember Hawkins second by Councilmember Plummer, and unanimously carried on a vote of 5-0 to adopt the resolution as presented.

2. Consideration of design options for the pedestrian crosswalk at Green Street as part of the Stockton-Washington Transit Project

Director Kellogg reviewed the status of the Stockton-Washington Transit project including a recent site visit by CalTrans and the pros and cons of the Hawk system and pedestrian refuge crosswalk alternatives. Prior to public comment, Council members had questions regarding light pole and island design, accident history, CalTrans responsibility and future liability and a crosswalk option without a median.

Gerald Fuccillo expressed concerns with turning movement conflicts, reduction in travel lanes, vehicle stacking and related safety concerns and asked the Council to reject the project. The Council discussed vehicle traffic on Green Street, which solution provided more pedestrian safety and the design of the pedestrian island. Administrator Miller advised the Council that this was a preliminary design to solicit Council direction with the details to be addressed if it was the preferred alternative.

Dave Morgan suggested the removal of the Stockton travel lane would impact turns onto Green Street that should be addressed before the crosswalk decision.

Barbara Dressler stated an objection to limiting discussion and relayed she was told there was only one accident at this location. Ms. Dressler supported Mr. Fuccillo's conclusion about safety and congestion concerns and questioned the need for a transit hub at this location since there is a stop at the Heritage Inn.

Jeff Michaels, owner of the Sonora Inn, expressed support for the crosswalk with the island to accommodate his customers that

cross Stockton Road and a need for a crosswalk on Green Street between the two hotel properties.

Elena Linehan stated there needs to be more notice to the public, that there are better places for tour buses and that the location could be moved further south and smaller buses should be considered.

Laurie Lehman reminded the Council of the prior decision to move the transit stops from Washington Street to Stockton Road and the vehicle and pedestrian conflicts on Washington Street.

Jim Davis expressed his concerns with reduced travel lanes, problems with vehicle stacking on Washington Street currently, loss of parking spaces, business closures and the overall design.

Darin Grossi discussed his transit user profile and their needs, that these transit stops would replace the Courthouse Park transit stop and the flexibility of CalTrans design requirements and context sensitive solutions. Mr. Grossi indicated that fewer lanes narrow the street and shortened the distance for the crossing making it safer for pedestrians and generally preferred the pedestrian refuge design. Mr. Grossi discussed ridership, bus sizes, routes and timeframes in response to questions from Councilmember Such.

Administrator Miller reviewed the options for the Council and prior Council direction noting work is proceeding to the 65% design and staff is soliciting direction on this particular issue. **Councilmember Williams** stated safety is a primary consideration, that there are historical impact concerns with the Hawk system and therefore supports the pedestrian refuge design. **Councilmember Plummer** expressed support for the pedestrian refuge and would have liked more information regarding vehicle stacking. **Councilmember Hawkins** recognized the need for a crosswalk in the area but did not support another traffic light and expressed his frustration with the process and could not support the project. **Councilmember Such** felt she was given two bad choices, that this a project that does not work, is not needed given the number of riders and has environmental consequences and she cannot support. **Mayor Garaventa** indicated he did not like the Hawk system but did prefer the pedestrian refuge alternative and the need for a crosswalk at this location. **Director Kellogg** responded to Council questions describing the type of pedestrian crossing signs that would be included in the design and an estimate of \$145,000 in design costs to date.

Motion by Councilmember Plummer second by Councilmember Hawkins, and carried on a vote of 3-2, with Councilmembers Hawkins and Such dissenting, to include the pedestrian refuge in lieu of the Hawk system for the crosswalk design.

3. Presentation of the Fiscal Year 2019/20 proposed budget

Director Gorsky introduced the proposed budget and reviewed the City's total revenue and expenditure estimates noting there were no personnel or service changes and that the general fund was balanced. The increased revenues were noted including sales tax and cannabis fees as well as the offsetting costs including increased medical and PERS. The capital projects were reviewed with Council including the Farmer's Market restroom, Fire Museum, Woods Creek and Police Department improvement projects noting the special funds and general fund allocations for these expenses. In response to a question, Director Gorsky reviewed the Measure I funds and Department allocations. Administrator Miller reviewed how the Measure I funds have been and are being used and summarized the operational and special fund sections of the budget and responded to Council questions. The Council did request Staff to include funding for recording and broadcasting the Planning Commission meetings. Mayor Garaventa recused himself from this portion of the budget discussion. Jerry Day provided information on the services Access Tuolumne would provide. There was no further public comment. Staff indicated they would proceed with the direction from the Council.
